

# Charles Update

We are thankful to God for the 4 donors who gave to Charles' medical care & hut construction and the 2 new sponsors who provide for his nutrition and school fees.

Sarah and Director Jabeth (not pictured) delivered his nutrition diet for the month.

With growing confidence  
Charles is attending the  
AEM Saturday  
program.

When the AEM team visited, Charles' friends and siblings were all smiles.

Thanks to Grace Okwara, a public health professional and wife of AEM Director Daniel – Charles receives a diet that improves his health with beautiful fruits and vegetables.

Charles' mom sprang into action to make immediate improvements with Grace's instruction that will help protect the family until a proper pit latrine can be funded and built.

**AEM volunteer gives back as a public health professional by providing critical sanitation education.**

## **2 ways to help this family:**

**New Hut for Charles' family = \$230**

**Pit Latrine construction = \$710**

**\*\* AEM is currently completing the hut that Charles had started by hand for himself. However his mom's hut was collapsing inward when we visited in Nov.**
